ENDORSEMENT
PROFILE
@bryanMMathers

What is *Endorsement?*

Endorsement provides conceptual and technical infrastructure for third-parties to **publicly acknowledge** the **value of badges**.
Endorsement structures must be in place to ensure **transparency** and **confidence** in the badging process.
Trust is required amongst badge earners issuers, and consumers

The Role of Endorsement in Open Badges Ecosystems
by D. Everhart, A. Derryberry, E. Knight, S. Lee

How is *Endorsement* used?

The intentionally open structure of **badge endorsement** provides opportunities for a variety of different **types of endorsers,** including community organizations, employers, standards bodies, and groups that are re-envisioning how the **value of learning** is defined.

The Role of Endorsement in Open Badges Ecosystems
by D. Everhart, A. Derryberry, E. Knight, S. Lee
