MOBILITY OF YOUTH WORKERS

Learning mobility projects of youth workers support the professional development of youth workers by enabling them to acquire new skills and professional experiences. The projects may include transnational activities such as seminars, training courses, contact-making events, study visits and job shadowing periods abroad. The projects also contribute to strengthening the quality and the role of youth work in Europe.

Erasmus+ is the European Union's programme for boosting skills and employability through activities organised in the field of education, training, youth, and sport. Youth activities under Erasmus+ aim to improve the key competences, skills and employability of young people, promote young people's active participation in the society, their social inclusion and well-being, and foster improvements in youth work and youth policy at local, national and international level.
